7-6-04
Date

Melanie Gover
Signed by: Melanie Gover

Dear Sir:

Applicant(s) and their attorney thank the Examiner for the telephone interview on June 30, 2004 during which Applicant's attorney, Melanie Gover, and Examiner Brock discussed the portions of the Office Action having a mailing date of March 15, 2004 which state that (1) there is no evidence on the record that suggests an interconnect layer comprising both dielectric layers and metal layers cannot be considered a dielectric layer, and (2) nothing on the record suggests that SiO₂ is not an adhesive. No agreement was reached.

Respectfully submitted,

July 6, 2004
